

22.113(455B) Significant Title V permit modifications.

22.113(1) Significant Title V modification procedures shall be used for applications requesting Title V permit modifications that do not qualify as minor Title V modifications or as administrative amendments. These include, but are not limited to, all significant changes in monitoring permit terms, every relaxation of reporting or record-keeping permit terms, and any change in the method of measuring compliance with existing requirements.

22.113(2) Significant Title V permit modifications shall meet all requirements of this chapter, including those for applications, public participation, review by affected states, and review by the administrator, as those requirements that apply to Title V permit issuance and renewal.

22.113(3) Unless the director determines otherwise, review of significant Title V permit modification applications shall be completed within nine months of receipt of a complete application.

22.113(4) For a change that is subject to the requirements for a significant permit modification (see rule 22.113(455B)), the permittee shall submit to the department an application for a significant permit modification not later than three months after commencing operation of the changed source unless the existing Title V permit would prohibit such construction or change in operation, in which event the operation of the changed source may not commence until the department revises the permit.

EPA Rulemakings

Description:	The EPA promulgated interim approval of the Title V operating permits program and approved the state's program for receiving delegation of section 112 standards. Interim approval expires October 1, 1997.
--------------	---

[illegible]

Description:	<p>The EPA granted final full approval to the Title V operating permit program for the purpose of meeting the requirements of 40 C.F.R. Part 70. This fulfills the conditions of the interim approval granted on September 1, 1995, which required the state to submit a revised workload analysis describing how the operating permit program would be implemented.</p>
